

**STERIAN, Alexandru**, *Moduli Spaces of Rank 3-stable Vector Bundles on Hirzebruch Surfaces with  $c_1 = \sigma$*

**Abstract**

We study the nonemptiness, the irreducibility, the smoothness and the unirationality of the moduli spaces of rank 3 stable vector bundles on a Hirzebruch surface with  $c_1 = \sigma$ .

**Keywords:** *Vector bundles, moduli spaces, ruled surfaces.*
